

## John Weichel Research Files Index A2006.179, A2013.093

---

Index created by Archives Volunteer, Robin Hilborn

**John Weichel** is a local historian and author of books including *Forgotten Times - Marine History of Southampton & the Bruce Coast* and *Forgotten Lives - Early History of a Coastal Village*. Each book is detailed with births, marriages and lives of the many people who pioneered the area and whose descendants remain in the region. In 2006, Mr. Weichel donated to the Bruce County Archives the papers he gathered when conducting research for his books. In April 2013 John Weichel gave Robin Hilborn additional research files for use in his research. In November 2013 Mr. Hilborn donated to the Bruce County Archives these additional files. The research files consist primarily of notes and copies of newspapers and other published materials.

**This index** consists of key names, dates, subjects, and published sources, referenced in the John Weichel research material. The nomenclature “binder” is retained, although they have been converted to acid-free boxes and files.

**This index is searchable using CTRL-F.**

**To view the Research Files referred to in this index, please contact Archives staff to make an appointment to visit the Archives.**

1848 July 7 [Signal] “The large American schooner *Ramsay Crooks*, which for some time past has been an ornament to our harbour, sailed on Wednesday morning with wheat for Detroit ... attempt to dazzle the imaginations of our local youth with the ‘Star-Spangled Banner’ on Sunday! shews a rashness ... want of international courtesy and good-breeding ...”

1851 July 12 [Owen Sound Comet] W.A. Stephens wrote from Owen Sound, dated June 1851, relating walking the trail to Southampton to see the wreck of the *Rose*. “Hearing that the Schooner *Rose* was stranded at the mouth of the Saugeen, and having taken a risk upon part of the cargo in the Provincial Mutual and General Insurance company, for which I am agent, I found it necessary to cross over to look after the goods insured. The Saugeen is looked upon by many as the Eldorado of Canada ...”. Walking the path, about 25 miles; description of route from Owen Sound; Rankin’s Saw Mill; Indian path; Mr. Jimby’s clearing; swamp; river Sauble; beaver meadow, in watertight boots; good soil; hardwood timber. “About five miles from the mouth of the river you come to an Indian sleigh road, and some two or three miles from there you come to the Indian clearing; here the soil is a light sand. You pass the Indian village, which extends a considerable distance, leaving the Saugeen with its beautiful flats on the left. We got to the mouth about dark, and in its *mouth*, fast in its *teeth*, we saw the poor stranded *Rose*. She is a fine looking vessel still, through [sic] in such distress ...” She struck on the sand bar, turned round on the rocks; stiff gale; cargo floating; most of cargo on shore. “She had freight for most of the ports on the Georgian Bay.” “...I think a good deal of the site of the intended Southampton, and no doubt it will soon be a flourishing place, as it will be the natural outlet for a large and fertile tract of country; all here think so much of the place that we are very desirous of having a good road made to it immediately ...”. “The town lots are to be open for sale, I understand, on the 16<sup>th</sup> August, when the squatters may become owners to the extent of their means and inclination. The want of a harbour will be felt as a great drawback, and the stranding of the *Rose* has been a damper upon the prospects of the place ...”

- 1852 Feb. 24 ["G&M"] [adv] "For Saugeen and Goderich, should sufficient encouragement offer, the steamer *Reindeer*, Captain Purdy, will leave Toronto and Hamilton, on the opening of the Welland Canal, for Saugeen and Goderich, calling at Port Stanley, and ports on River St. Clair ... Two pages, “**The Granville Gazette – Vol. 1-1 – July 1996**”; editor and publisher: Pat McArthur, Port Elgin. **Page 1:** “Reunion of early French families of Southampton”: descendants of Granville-Ducharme and Granville-Higgins met July 13 at Pat McArthur’s house; marine walk led by John Weichel. Their parents were “Augustin Granville/Gonneville Sr. and Marguerite La Longe, believed to be a daughter of fur trader Joseph La Longe dit Gascon ca 1777-ca 1860’s, whose ancestors came west out of Quebec to the Detroit River area in the late 1700’s. [Correction in Vol. 2-1: Not sure if the Longes are connected to the early Longes of the Detroit River area.] Upon the collapse of fur trading, Augustin Sr purchased, from the Canada Company in 1827 and 1830, two parcels of land in Goderich township, Huron County. Close by were Joseph Longe Sr. ‘trading with the Indians,’ and other related families Joseph Longe and Christine (La) Plante, Mary Longe and Leonard Casolaye/Cosley, and Catherine Longe and Louis Bellemore. Augustin Sr. died sometime before 1842 and Marguerite remarried Antoine Beausoleil Bosley. All were Southampton pioneers. These families continued to travel the waters of Lake Huron as they had done in the past, venturing north as far as the Fishing

Islands off Oliphant, Ontario, and west to areas around Alpena and Port Austin, Michigan. They fished and worked as coopers in the developing fishing industry. From earliest times they spent their summers in Southampton and the Islands, returning to Huron County for the winter months. Augustin and Gabriel Granville are on record as being in established cooper shops on the Southampton waterfront in 1848, with homes nearby. They are believed to have moved permanently to Southampton in the late fifties or early sixties. The Granvilles were well-known Lake Huron mariners and Augustin's sons were schooner captains Joseph Granville and Francis Granville, whose schooner the *Ontario* went down at the mouth of the Saugeen River in 1907." "Pierre Payette dit St. Amour and his wife, Emily, were one of the early French families which came to Huron County in the early 1800's ... among the first French settlers in Stanley Township, Huron County. Later, he moved ... to Southampton. The first known Southampton record of Pierre is that of a lot purchased for thirty pounds in Southampton on 14 Dec 1857 from Thomas Adair", then sold to William Busby on July 21, 1858.

Five pages, copy of manuscript, 1855. Petition from Kincardine to get public funds for improving Port Head Harbour. “Goderich, 7<sup>th</sup> Dec. 1855. The Honble Provincial Secretary, Toronto, Sir, At the instance of parties interested, I beg to forward you the Petition of ... inhabitants of the Township of Kincardine ... with a plan entitled ‘Port Head Harbour’, praying for public outlay for the improvement of the place ... and very great inconvenience is therefore experienced ... from there not being any good harbor or Port of Refuge on that shore from Goderich to Southampton, a length of Coast of nearly Seventy miles. ...” Some 150 signatures attached. Endorsed “1855”, “6/1/56”, “19/7/57”.

One page, typed, two copies. Transcriptions of two newspaper articles from 1834. *See next.*

1834 July 16 [London U.C. True Patriot (undated), in *Cobourg Star*] Transcription of newspaper article, untitled. *Summary:* Huron Tract; Goderich with 100 houses. Steamboat Schooners *Dolphin*, *Cincinnati*, *Theresa*, *Catherine*. Roads turnpiked. Fishery company. “Goderich – Seven years back the Huron tract was untrodden by the feet of Europeans ... under the guidance of the Canada Company, that several towns have been laid out, ... The town of Goderich, on the shores of Lake Huron, has within five years risen to a degree of prosperity ... almost beyond belief. Already there are upwards of one hundred houses, (including six general stores and two inns) finished and fully occupied; ... A handsome steamboat has been launched, and the contractor is under bond that she shall be ready to make her first trip early in July. During the past week the Harbour has presented a business-like appearance, that augurs well for her future commercial prosperity. No less than four schooners had arrived fully laden, and were lying at the wharfs, viz. the *Dolphin*, of Oakville from Toronto; the *Cincinnati*, of and from Buffalo; the *Theresa* and *Catherine*, both belonging to spirited resident individuals, and employed between that port, Detroit and Buffalo, ... A most excellent road cut through the south east part has been turnpike ... It is also proposed to

form a Company for the purpose of establishing a fishery on the Lake, whose noble waters afford a never failing supply of salmon, trout, black and white bass, suckers, herrings &c. of a quality to satisfy a gourmand, and the wants and wishes of settlers, during their early operations. ... A poor woman ... destitute of funds to return to [Scotland] ... [raised funds] .. the owners of the sloop *Catharine* [sic] generously gave her a free passage to Detroit.”  
[second article] “Two schooners arrived at Goderich on Monday (July 14<sup>th</sup>) one from Penetanguishene and the other from Buffalo.”

1834 July 30 [Toronto Courier (undated), in Cobourg *Star*] “Steamer *Minnissitunk* – This elegant little steam-boat, lately built at Goderich by the Canada Company, made her first trip from that place to Sandwich, on Wed. the 16<sup>th</sup> inst. and performed that passage – a distance of 150 miles – in 14 hours carrying on an average less than 4 inches of steam. This boat will ply regularly between the two ports before named, twice a week; and will therefore afford a regular, expeditious and cheap conveyance, to the capital of the Huron territory. The engine of the *Minnissitunk* was made in this city, by our enterprising neighbours, Sheldon, Ducher & Co.” [partly legible at bottom, in a separate entry:] “... Dalton with the engine for the new steamboat built at Goderich ...”

1857 Apr. 14 [Buffalo *Daily Republic*] Praise for the harbour at Bai-du-dard [Bededor Bay] or Port Bruce. Two piers being built. Steamer *Ploughboy* to call there. The *Daily Republic* quotes from the Goderich *Signal*, a letter from Capt. Gilmore of the brig *Sultan* of Buffalo: “The brig *Sultan*, of Buffalo, which I commanded, had a collision with a vessel off Middle Island on Monday night, 27<sup>th</sup> October, in consequence of which I had to run for the east shore. I had the good fortune to run into Bededor Bay, ... good anchorage ... having been a week in the place, I see no difficulty in making the harbor a safe and commodious one for the largest vessel on the lakes.” <A correspondent of the *Signal*, writing from Port Bruce, further adds:> “... every one who is acquainted with the harbor admits that the ... possibilities and capabilities is just; and that the owners and captains of vessels sailing on the lake are of the same opinion, is proved by the fact that no less than five schooners have this winter laid up in it. ... Two piers are in course of erection ... the steamer *Ploughboy* is to call during the ensuing season. I understand, also, that government has fixed upon a site for a light-house.”

1857 Jan. 31, in the Buffalo *Commercial Advertiser*: [transcribed] Collision of brig *Sultan* and schooner *G.L. Newman* on Oct. 27, 1856 at Middle Island off Presqu’Isle (Lake Huron).

- 1861 June 14: Owen Sound *Comet*. Shipping News. *Ploughboy, Josephine*. Cargo: barrels, coal, salt, plaster, sugar, whiskey, clothing, horses and wagon, bricks, potatoes, eggs, lime, cows, sheep, flour, pork, pigs.
- 1862 June 5. Owen Sound *Comet*. Shipping Intelligence. *Ariel, Newash, Garribaldi, Ploughboy, Clifton*. Cargo: corn, oats, hides, lumber, passengers, wheat, flour, eggs, butter, pork, cows, pigs, potatoes, chickens, lime. Owen Sound Market prices for those goods. Toronto market prices.
- 1862 July 25. Possibly Owen Sound *Comet*. "Great Fires—Destruction of Property, and Loss of Life". Drought for three months. Houses on shore of Lake Huron endangered by bush fire. Fences burnt. Crops burnt. In Township of Bruce two boys, 7 and 9, burned badly; one died. Serious destruction at Port Bruce, better known as Bay-de-dure: store, saw mill, burned. "Frightful Self-Murder in Arran – A man blows his own head off!": Thomas Duncan's signs of insanity. Excursion on steamer *Kaloolah* with about 1,000 from London.
- 1864 April 12. *Huron Signal*. "Navigation of 1864". "... withdrawal of the line of Propellers between this and Chicago." *Niagara* repaired, will run to Chicago, with Capt. Charles Macintosh. Steamer *Canadian* on the Shore Route. Forwarders VanEvery & Rumball. Vessels *Maitland, W.H. Merritt, Tecumseh, Jenny Rumball, Lily Dancey*.
- 1866 Aug. 10. *Paisley Advocate*. "Kincardine harbor": dredging progresses; *Silver Spray* will be able to land freight.
- 1867 May 23. Goderich: *Huron Signal*. "The British Ensign hauled down". *City of London*, Capt. John Pollock, at Goderich; Royal Navy ensign removed by crew of *Cherub*; no right to fly that flag.
- 1868 Apr. 30. Goderich: *Huron Signal*. Goderich harbour of immeasurable value, in case of war, if the basin was dredged. "Our harbour": many sailing vessels and propellers; *Clinton* (between Goderich and Saginaw); *Spray*. "Harbor of Refuge for Lake Huron": need for safe harborage on the east coast of Lake Huron; a Select Committee to be appointed.
- 1868 Nov. 13. Goderich: *Huron Signal*. [transcribed] "A Relic of the Past". James Wiggins saw an old schooner in the bed of the Sauble River, about a mile from the mouth. An old man relates a legend that about 90 years ago the British built the vessel on the Niagara River and when she reached the Sauble, the crew was murdered by Indians.

- 1887 Aug. 18. [adv] Auction by Erra Briggs, at John's Hotel, in the Village of Southampton, of the mill "Sauble Mills", timbered lands, on the Sauble River one mile from Lake Huron. Built in 1884; description; water wheels; frame dwellings; *Heather Belle* and *Phoenix* also for sale; three scows also.
- 1896 May. Warton. "Mar": Capt. Richard Gawley; Rev Young; Anthony Marshall; Mr. Clendenning the school inspector. "Pike Bay": "Schooner *Wanderer* has left with a cargo for Chatham." Mr. Spence's yacht on a trip to Pine Tree. Farm produce prices for Hepworth, Toronto. Market prices.
- 1897 Nov. 10. *The Port Elgin Times*. "Amabel": deer hunting parties. Sauble Falls cattle ranch. Forrest and Stevens took samples of sugar beets to test percentage of sugar for the Owen Sound Sugar Beet Co. Driller Fraser is now drilling for oil. "Pine Tree": *Gilphie*, *Mary S. Gordon*, *Wanderer*, called at the harbor this week. Photographer G. Williscroft of Warton called and took views.
- 1924 May 8. "Red Bay and Its Memories of Indian Councils and Battles". Account by J.W. Brown of Stauffville of the origin of "Red Bay". Ancient Indian camping ground. Many relics found. Burying ground yielded weapons, tools and utensils, buried with the dead. As told by "a pioneer of Bruce Co.", a version of the religious belief of one tribe camped at Red Bay: the spirit of the dead travels west, across a canyon to the happy hunting ground, using a single long and slippery pine log; good Indians pass over; bad ones fall off the log to water filled with dead fish and crawling monsters. Indian reverence for the dead; sacred rites; lack of grave markers. Legend says Red Bay got its name from a bloody encounter between Huron and Ojibway, near Trout Creek; the Hurons had been encamped at Red Bay, hunting; "raving Ojibways" attacked. About 15 years ago the land of the Indian campground was obtained by Symon, Trout and Symon, who preserved the place.
- 1942 Oct. 7. Owen Sound *Daily Sun-Times*. "Tobermory Fish Launch is driven onto rocks at Fitzwilliam Island." Mr. and Mrs. Jefferson Weir scramble to safety, helped by William Chapman, who has a fishing station on Fitzwilliam Island.

1888 Feb. 2 [Port Elgin Times] [reprints item from *Morning Star*] "**Southampton in 1861** – The following culled by the Advocate from an old copy of the *Morning Star*, dated March 7<sup>th</sup>, 1861 and then printed in Southampton, will be read with interest. The paper was handed to the Advocate a few weeks ago by Mr. J.C. McIntyre, of Elderslie, and is a six column four page paper, containing local and general news with a fair sprinkling of advertising, and quite in keeping with the title its motto [*sic*] is "Let there be light." The office of publication was on Grosvenor St., and the proprietor's name was D. McMillan. Among the business cards Paisley is represented by Dr. Crawford, coroner, and R. Gilmer surveyor, and we not also that of Dr. W.S. Scott, of Saugeen, while Geo. Gould, was issuing marriage licenses in Invermay, and Thomas Lee in Southampton. Sproat & Hawkin's card also graces this column. A notice calls upon those indebted to the estate of George Jardine to pay up; an apprentice is wanted by Edward Kennedy of Southampton, and Wm. Elves of Paisley informs the public that he has a stray steer running around him. A controversay [*sic*] is going on between Arch. Roy of Port Elgin, and Wm. Gowanlock of Saugeen, while a lengthy epistle from Arran lays serious charges at the door of the municipal councilors individually for trafficking in the relief supplies provided by the Government to tide the settlers over "the bad summer '58." [...] columns show the [...] nd South to ..." [*end of visible text*]. Attempted suicide of Mrs. Hayes at Hepworth. Sabbath School officers elected [Sunday School].

1934 Feb. 15 [The Beacon] "The Prize Story", by Miss A. Tolmie, reprinted from the Bruce County Record; *starts* "It is the autumn of 1865 or '66, and Lake Huron is in a fury ..." – American steamship *Pewchie* – Indians will not touch a dead body – Troy Bell Co. of Syracuse sent Southampton its first bell – town bell, church bell, school bell, fire bell – *ends* "but the bell still rings on, doing its duty". Death of Malcolm Matheson, 89, married Mary Smith 40 years ago. Death of Elizabeth Hilton Powell (Coulson), born 1839, married 1860 William Powell. Diesel train to resume its run; twice-a-day mail will return. Death of John G. Simmie at Dauphin, Man., married Lillie Smith, daughter of Geo. E. Smith. Articles were OCR'd; following was proofread.

### **SAUGEEN**

A Settlement of Chippewa Indians, near the mouth of the Saugeen River, on Lake Huron. It was from these Indians, and their brethren since settled at Owen's Sound, that Sir F. Head, in 1836, obtained a surrender of that vast tract of land lying north of the London and Gore Districts, and between the Home District and Lake Huron, containing about 1,600,000 acres. He reserved at the same time for the Indians, the extensive peninsula lying between Lake Huron and the Georgian Bay, north of Owen's Sound, and supposed to contain about 450,000 acres.

Little was known of these Indians by the Government before that period, as their village was remote from any white settlement; but they appear to have been settled and converted about the year 1831. In 1837, their missionary gave the following description of their condition:—"This mission is beautifully situated; fine flats, containing from two hundred to three hundred acres, extend along the river, where the Indians cut sufficient hay for their oxen and cows, and grow excellent corn. There are some good log houses, and several comfortable bark shanties. On the hill, in rear of the flats, are several fine fields of corn and potatoes. The Indians at this station have been remarkable for their stedfastness [*sic*] since they embraced Christianity. They appear to be a happy people: much attached to their missionaries, teachable, and give solid proofs that they are progressing in civilization."

The chief superintendent, however, who visited them in the same year, reported that they appeared very poor and miserable, trusting very much to hunting and fishing for their support. The fishing is very productive, and has attracted the notice of the white people, who annoy the Indians by encroaching on what they consider their exclusive right, and on which they rely much for provisions. They hunt in the tract belonging to the Canada Company, and on the unoccupied lands to the south and east of Saugeen river.

This settlement does not appear to have been visited by any officer of the Government since 1837; and so little is it known, that it is supposed to have been incorrectly laid down on the map by the extent of half a degree. The chief superintendent reports, that he cannot give an accurate account of it. He states that the greater number of Indians lived for a long while in very small log houses, and in houses made of elm bark. The present missionary states that there are only six log houses, and that the rest are bark huts or wigwams. The village is situated about two miles up the Saugeen River. From the report of the chief superintendent it appears that the Indians contemplated abandoning this situation for one nearer the mouth of the river; but they have since determined to remain in their old locality; and have this year built by contract six excellent houses.

The mouth of the Saugeen River forms the best, and almost the only port of refuge on the eastern shore of Lake Huron; hence it is likely to become a place of considerable resort; and it is in contemplation to carry two roads in different directions through the Saugeen tract to this point. The rumour of this intention was lately a source of much inquietude among the Indians, as they became apprehensive of being obliged to quit their settlement, and surrender their improvements. This apprehension, however, has been removed, and they are now looking forward to the erection of a saw mill, and to the supplying the schooners, touching at the port, with lumber and fish.

A missionary of the Wesleyan Methodists has long resided among them. Their present missionary is an Indian, brought up at the Rice Lake Mission, and at a school in the United States. They have a chapel which serves as a school-house, and a mission house, which were built by the Wesleyan Methodist Society, about the year 1831. They have also had a schoolmaster for some time past. Almost all the tribe have embraced Christianity.

These Indians are entitled to share in the annuity of £1250, recently granted in exchange for the Saugeen territory, surrendered to Sir F. Head in 1837.

### ***SAUGEEN RIVER***

Takes its rise in the Indian territory, north of the Huron Tract, and after running nearly a west course, enters Lake Huron about sixty miles north of Goderich. At the mouth of the river is a pretty good harbour, allowing the entrance of vessels drawing eight feet of water; but the passage is difficult of entrance.

### ***SAUGEEN, GEGETO, OR FISHING ISLANDS***

A group of Islands, fifteen or twenty in number, lying about seventy-eight miles above Goderich, and eighteen above the Saugeen River. They are not inhabited; but a

large quantity of fish is annually taken on their banks. About 1000 barrels are generally exported; but any quantity might be taken, there being no limit to the supply. As much as from two to three hundred barrels of fish have been taken at a single haul of the seine.

1849 June 9 [Globe and Mail] [transcription of photocopy:] << **Dinner at the Saugeen –** Although news does not travel very fast in the back-woods of the West, yet it occasionally penetrates even to the shores of Lake Huron. We learn that on the 9<sup>th</sup> instant, a company, at the mouth of the Saugeen, where mills are erecting and at which there is a considerable Indian settlement, met at the dinner table for the purpose of [...ing] the triumph of truth, by the [...] of Mr. Ferguson[?] [ ] member for the county of Waterloo. The dinner was served up in the Indian Church, on the outside of which were flying two Union Jacks belonging to the Indians, and a Durham flag belonging to the party. The chair was taken by Captain Leghi[?], and upwards of [*a number, probably 120*] persons, including Indians, sat down to the entertainment, after which the youngsters took a turn at the fragments. A number of toasts were drunk and heartily responded to, amongst which we [ ] mention that of “The Governor General,” which was received with much applause; “Mr. Ferguson[?], the member;” “Mr. Charles Allan of Elora,” &c. &c. Lady Elgin was not forgotten, with whose name was associated that of her father, Lord Durham, the whole company singing

May Lady Elgin’s name to glory rise,

And peace and joy [ ] her;

While English [ ] [ ]

No gloomy heart offend her.

We understand that a company of men of enterprise is formed in that neighbourhood, who are erecting a saw-mill, and anticipate being able to lease the fishing grounds at the Saugeen Islands. The soil is well adapted for growing wheat, and it is fully anticipated that in a few years this place will be one of great prosperity; more especially [ ] the river is navigable for many miles, and the country rapidly settling. –*Guelph Advertiser*. >>

1850 From Norm Gurr. “Robert Lynn – The civil engineer who laid out the town plot of Southampton in 1850”. One page, typed. << The attached biography of Robert Ford Lynn comes from the 1935 Edition of the Annual Reports of the Ontario Land Surveyors. The first letter of recommendation is from Benjamin Thorne ... Wm. Crookshank ... The second letter is to Wm. Herkimer who was a native from another tribe who had taken an English name. According to The Christian Guardian of 1832, he was minister of the Methodist

Church. James Cathey was also a Methodist Minister who later became the first township clerk. The first township council meeting was held in his house.

What this seems to indicate is the fact that he may have been looking for native assistants in his work. What is also surprising is the date of the letter which is October 2nd 1850 in Toronto. It would have taken some time to get to Saugeen.

The first plan (at the mouth of the river) was completed by December of 1850. It would have been a remarkable accomplishment to have done all of the work in the last 2 autumn months. It required 6 months to do the last two partial maps.

He seems to have done survey work for the Credit Indians and had apparently used natives as helpers there, and wanted them as helpers here.

The 1843 letter was signed by a number of prominent people in North York and Toronto reinforcing the fact that he spent some time there doing work prior to coming to Saugeen. (Wm. Johnson was a cooper, George Gurnett was the editor of the Courier of Upper Canada, and the Mayor of Toronto in 1837 ... Franklin Jackes was a justice of the peace.)

He seems to have lived in Meaford after he left Southampton where he worked and is buried in St. Vincent Township. >>

exceedingly unlike anything I have seen in Canada. It rises from the lake at the mouth of the river (Saugeen) with a gentle slope. The river is at the northern and eastern boundary of the town plot. Three new stores besides steam mills, are going up in a twinkling, lots are selling at 30 Dollars, and vast numbers of immigrants, respectable and able, from Toronto and many other places are waiting eagerly to locate, although a few weeks ago, there was not a tree cut.

The Saugeen possess the best, if not the only harbour on the Canadian side of Lake Huron, and the Government engineers are now busy in running a road between the Indian lands and the Townships of Arran and Derby, to the town of Sydenham.

Now on coming, the snow was so deep and the storm so high, that I could scarcely see two feet before me all the way; my feet blistered with the snowshoe strings; and falling over into the snow bank [ ] or three times I nearly smothered therein. As soon as I arrived at Southampton, notwithstanding the raging of the tremendous storm, Mr. Gilbert got up his horses ready for Owen Sound, – everybody telling us that we would not get to Owen Sound that night – we, however, started with good hearts and our horses and sleigh ploughed away in the snow for six miles, when one of our horses began to lay down, but when Mr. Gilbert gave him two or three blows across the nose, he managed to get up; but before we got two miles further, he lay down so often, and got so many beatings, that I thought it was too bad to use the poor horses this way; I there fore begged of Mr. Gilbert to turn back and give up the point, and honestly confessed that we were defeated, by the snow and storm; but Mr. Gilbert said that he would kill his horses first before he would turn back, and that he would take me to Owen sound to my appointment that night; but when I looked at my watch, it was one o’clock, and we were only eight miles from Saugeen! We there fore saw plainly that it was useless to go forward; and turning back we tried to save the horses, and got home the following day. (1856) 1939 Apr. 6 [The Beacon] << Early Development of Lake Port Towns (London Free Press), by Dr. J.J. Talman. On June 5, 1856, The Huron Signal, Goderich, began printing a few “brief notes on the rising villages ...” ... Southampton, situated on the southern bank of

the Saugeen River, is located principally on a sandy ridge, which extends some distance back from the lake, beyond which, there is another considerable rise, where the land is of better quality. The first settler or squatter ... located himself there, about seven years before, and it was not until some years later that the settlement of the present town may be said to have commenced in earnest. The Indians had a village years previously, some two miles up the river which contained several good-looking frame houses, but the only resident white man among them was the missionary. Some idea of the present and future importance of Southampton may be gleaned from the following facts as presented in 1856:

The population of Southampton is now about 400, and that of the Township of Saugeen, according to a census taken during the present year, 1,158. Southampton contains three churches (Free Church, Wesleyan and New Connection Methodist), one school, four taverns, six stores, tinship, bakery, etc. It also has a Mechanics' Institute, and a branch Bible Society. There is an agency of the Bank of Upper Canada, and a resident crown land agent. There is also a steam sawmill in operation, which is capable of sawing 3,000 or 4,000 feet of lumber in 12 hours – and among the contemplated improvements will probably shortly be in operation, is a planing machine and tannery.

One great drawback to the prosperity and advancement of Southampton is the large quantity of land in and to the north of it which is still unsold, and in the hands of the Government. It was the town plot and the whole of the recently surveyed peninsula expected that the remainder of month, [sic] but as no notice of this sale has yet appeared in the public prints, we presume that such will not be the case. In the meantime the best of the lands in the peninsula are being rapidly squatted upon ... The future prosperity ... depends upon ... the formation of its harbor. ... Chantry ... affords tolerable shelter ... recent grant of £8,000 ... a tolerable harbor of refuge may be the result. ... At the present, even in moderately rough weather, goods can be landed with safety only on the island. ... Port Elgin ... thriving ... farmers ... of German extraction ... village already contains over 250 inhabitants, has two very respectable taverns ... Of Bai-du-dard, Malta and Port Bruce the following is noted: Farther south, about 15 miles from Saugeen we come to Bai-du-dard, ... >>

Roy McVittie titled “Memories of the Yesteryear”, from the Southampton Beacon of 1967, centennial year for Canada]

1967 Jan. 4 [Beacon] “Centennial Notes – A holiday in Southampton sixty years ago”: “Sixty years ago, a holiday in Southampton was something of which to dream all year. Yet by today’s standards it was unexciting and rather primitive. We arrived by train, rather cindery and smoky, so the first breath of clear air when we stepped off was heavenly. One of the Knowles boys would meet the train with a two-wheeled, hand-drawn cart for our luggage. There was plenty. Mother had packed the big trunk, not forgetting winter underwear for all of us, in case the weather turned cold; there was no central heating in the main part of the Park House hotel, where the summer guests stayed, only in the Knowles’ living quarters ...” Sand-shoes, sneakers – sunbonnets, sailor suits, sailor dresses – boys suits cotton from shoulders to knees, girls suits in luster, scratchy – big breakfasts, window shopping – many logs on the beach: the lumber mill opposite Chantry Island would bring them down the lake; a boom might break and logs would come up on the beach – Mr. Knowles’ boathouse, rented boats, bathing house for changing suits, toboggan slide – Pinafore boardwalk – dinner by Mrs. Knowles, the best fish cook in the district – ice cream at Burns’ or Weatherall’s. G.C. Huston school crests arrive. Death of Jack Brown, 45, ex-Southampton resident, of North Bay.

1967 Jan. 11 [Beacon] “Holiday in Southampton”, cont’d from last week”: Hire fish boat to sail to the Island, climb the lighthouse – hire carryall at livery stable, drive to Goble’s Grove for a picnic – other memories come to light in interviews with Mr. Knowles of Southampton

and Miss Edna Savage of Guelph ... her grandfather was one of the early missionaries on the Chippewa Reserve – William Knowles invested \$ to buy the park, build the hotel and develop the summer resort with cottages – visitors could pitch tents – families Ryan, Savage of Guelph – first motor car – Southampton inspires family loyalty, returning through the generations. Death of Mrs. Noble Little, 71. Photo of ice fishing on Chesley Lake, from Tara Leader. At Annual Furniture Mart in Toronto, a display of furniture from Fitton-Parker and Hepworth Furniture. In another issue published two weeks later, a letter from John McNabb, Bruce County’s leading historian, corrected some of the occupations and names of some listed in the directory. The directory was owned by William Tranter, a well-known Southampton barber, and whose family was one of the earliest to settle in this area ... those listed were: Henry Boyle, farmer; Peter Brown, builder; John Belcher, blacksmith ...” [list of 45 names and occupations, concluding with:] “... George Webster, pilot; William Wilson, butcher. The surveyors for Southampton in 1851 were Robert Lynn, surveyor and engineer; John H. Heare, surveyor; and Richard Devine, chain bearer.”; next week, a “not so complimentary report on the village of Saugeen”. Hartley Doran finds more wreckage from steamer *Daniel J. Morrell*.

1967 Feb. 22 [Beacon] “Centennial Notes: Echoes of 1906”: “January 17th: G.T.R. schedule – Departures, 5:50 a.m., 7:00 a.m., 4:50 p.m.; Arrive, 12:05 p.m., 3:10 p.m., and 10:00 p.m. Council’s agenda suggested – extending the beach sidewalk ...” Jan. 24: excursion of the Bruce Old Boys and Girls Assn. – Jan. 31: J.W. Cameron selling out sale – Feb. 7: Glenn Trophy – Feb. 14: fancy dress carnival winners named – Feb. 21: Bell Telephone installed a new switchboard in its office; safe installed at Farmers’ Bank; Joe Granville, speed skater. 1967 Mar. 15 [Beacon] “Centennial Notes: The settlement of Saugeen, by Donald B. Shutt”: “For thousands of years men have congregated at the mouth of the Saugeen River ...” – Indian artifacts found on south bank of river, showing camps there – on fur trade route – “The late Miss Annie Longe ... told me that her parents often talked about listening to the chanting of the canoemen long before they came into sight to later land at the river mouth ... She told me that the canoes would be pulled up above high water mark and that the crews would sleep there all night before going further south.” – fur traders put up trading posts, “seldom remained long in any one place because, as Miss Longe related, the Indians would burn them out.” – “The late Miss Agnes Tolmie once pointed out to me the site of a fur trading post located at the entrance to Fairy Lake from the river. She described it as a Hudson’s Bay Post. Whether or not it was, is conjectural ...” Stage at G.C. Huston school transformed by Cham-Bettes with scenery, as a ship, for production of H.M.S. Pinafore. Addition to school planned. Daylight Saving starts. “Unpredictable Saugeen River, by Irwin Lobsinger:” conditions ripe for big spring flood, since we had flooding within 4-5 months of the regular spring freshet; low lying areas are saturated with water; excessive snow on the ground; “... flood records with dates and number of feet above normal each year: 1947, 11’2” above normal March 21; 1948 [was highest recorded, at 11’6” above normal] ... 1966, no spring flood.” “Water reaches the so-called flood stage when the river rises to 3’2” above normal, and starts to flood low lying areas.”

1967 Mar. 22 [Beacon] "Centennial Notes: The settlement of Saugeen, by Donald B. Shutt": (cont. from last week) Newcomers interested in fishing could not settle [in the Oliphant district] because "there was a fishing company at Main Station Island. So they chose the mouth of the Saugeen for their headquarters. We do not know exactly where they had their building but it was probably on Saugeen Street opposite the lane between Huron and Grosvenor Streets and just west of the Jackson fish house. There is a stone foundation of great age ..." – barrels needed – "It is on record that Bartholomew Higgins, a cooper, squatted on land on the lake front (Cottage No. 3) and had a cooper shop there. His daughter inherited the land and she was married to another cooper named Granville. In the 1851 directory, recently republished by The Beacon, two Granvilles are mentioned and both were coopers." – townsite surveyor prepared 1857 map for the Commissioner of Crown Lands – "22 buildings of various sizes were bunched on the land between the lake and Huron Street and Lansdowne Street and river. They were all on squatted land and many are shown to be on what later became street allowances. Among these buildings was a steam factory where boats were made. It was on what is now Lot No. 9. The settlement butcher shop and the site of the cooperage was on Front Street, Lots 10 and 11. The North American Hotel is mentioned also. ... business district moved south and east..." **One-page typed text**, probably by John Weichel. Undated. "Here are a couple of items concerning early days at Indian Rapids."

"1852 or 3 – Mill privilege at the Indian Rapids was taken up by Messrs. Lines (or Lyons?) and Hamilton in 1852 or 1853, and transferred by them in 1854 to Messrs. Dalton and McNabb of Toronto, who, in the following year, commenced the construction of the mill race. They also erected and partially enclosed a building intended for a grist mill. In 1856, they sold their rights to the mill privilege and the improvements to John Denny, who in that year cut a road through the bush to the village and moved his family in. By the spring of 1857 Mr. Denny had the grist mill in operation. In 1859 the sawmill was completed, and in 1865 the woollen mill was running." At first, no dam across the river, just a headgate halfway across. Water privilege bought in 1897 by Saugeen Electric Light and Power Co. [N. Robertson, p. 518]

1853 – Steam sawmill where creek from Fairy Lake enters Saugeen. Burned. Rebuilt as a steam grist mill and distillery by William Brady [NR].

1854 – From Elora Backwoodsman, *Toronto Globe*, Sept. 14, 1854: "We are sorry to hear that the large steam mill erected by Messrs Lyons & Co. at Southampton was consumed by fire last week. A fishing station has been established at Southampton by some enterprising Americans who are averaging a take of about five barrels per day to each boat. The yield is likely to be greater as the season progresses." [end of one-page typed text]

**Manuscript, typed**, 5 pp. probably by John Weichel. Undated. "Gordon: Here are some rough notes collected over the past few years on the subject of the power plant at Denny's Dam." Chronological summary, from 1890 to 1943. *Summary begins:*

- 1887 Aug. 11 [Paisley Advocate] “Our Northern Neighbors”: visit to Southampton and Allenford “and were glad to meet with the evidences of thrift so apparent on all sides. In Southampton the ravages of the terrible fire of last November are still to be seen, although several of the more energetic and progressive of the sufferers are attempting to fill up the gaps. One fine brick block consisting of a hotel and three stores, has been built on High St. on the old Commercial hotel corner, but at the Busby corner of the same block, nothing but heaps of burnt bricks, mortar and ashes with here and there sections of standing wall is to be seen. Considerable dissatisfaction, we learn, has been caused by the manner in which the relief money was distributed ...”; “... loss from the fire ran at something between \$60,000 and \$100,000, and to make up for this probably some \$15,000 or \$20,000 has already been replaced in new buildings ...”; “...The bath houses and the mineral springs for which Southampton has become so famous, will ever make it a favorite spot for summer visitors, but in this respect the village is suffering this summer from lack of hotel accommodation. This, however, will be fully obviated before another season as D. Teahan’s Commerical hotel will then be finished ...”; “... Chippewa Hill ... handsome new brick Indian Council Hall which the Department of Indian affairs has erected ...”. Elsinore new brick Presbyterian church. Extract, 1864, 13<sup>th</sup> June, page 378: “... Bill respecting the Waterloo and Saugeen Railway Company ... that the Bill be read the third time to-morrow.”

1864 Mar. 11 [Owen Sound Comet] “Railway to Bruce”: letter of Feb. 15, 1864 from F. Shanly to James Brocelbank, warden, Bruce County; Shanly visited the country, proposes a railroad scheme, if the county puts up at least 100,000 pounds; then a survey would be made.

1865 Mar. 24 [ ] “A railroad through Bruce”: provisional council supports giving aid to a line from the Northern railroad to Kincardine. *Bruce Herald* advances Walkerton as the county town, and not Paisley.

1865 Apr. 14 [Paisley Advocate] “Projected Railroads”: proposed Grey and Simcoe Railway; Northern Railway to Owen Sound; lines point toward the harbours of Owen Sound or Southampton. “The County Town Question”: by-law to build county buildings at Walkerton; to be quashed. [adv.] “Mortgage Sale ...will be sold by public auction, at Hilbert’s Hotel, Southampton ... 8<sup>th</sup> of May, 1865 ... part of lot E (F?), Lansdowne St.

1866 Apr. 6 [Paisley Advocate] “Railroad Projects”: Durham Line; Collingwood to Owen Sound; Central Road; Durham to Owen Sound; Durham to Kincardine; Guelph or Stratford to Southampton, would connect with the Grand Trunk and Great Western railroads. “Important Railroad Meeting in Southampton”: Shanly letter excites; reeve called meeting; committee of McNab, Sproat, Staunton, F. Proudfoot and Eastwood to draft resolutions; committee report said “in the year that has just closed, fully 750,000 bushels of wheat have been raised in the county”. Fenian excitement has subsided; volunteers have orders to return home. “Woollen Factory in Port Elgin”: “A first-class Woollen Factory is in course of erection at Port Elgin ... in operation very soon. It is intended to manufacture cloth ... carding, fulling and dressing for customers.”

1866 Apr. 13 [Paisley Advocate] “Railroad Communication”: “From the want of railroads, this section of the country loses annually a large amount in the extra cost of carriage of goods and produce ... most parts of Bruce and Grey are within one or two days journey of ports on Lake Huron ... [but] for five or six months in the year our ice-bound shores make navigation impossible.” “Port Elgin Correspondence – Apr. 10, 1866 – Railroad Agitation”: various lines proposed; in favor of a terminus at or near Southampton. Ice is still in the mouth of the Saugeen; in a wheat storehouse water was three inches above the lower floor; all wharfs have damage from the masses of ice.

1866 Apr. 20 [Paisley Advocate] “The Railway Schemes”: proposed routes and their promoters. Market prices in Port Elgin, Guelph, Toronto.

1867 Jan. 4 [Paisley Advocate] "Bruce Branch of the Central Railroad": lengths of proposed lines; country traversed; could run a line from Hanover on the left bank of the Saugeen, across the Elora Road and across the Teeswater to Southampton. "Arrived at Southampton, the question of harbor becomes one of the first importance. There is in truth and in fact no harbor, not even the shelter of a river mouth, for the rapids of the Saugeen and the billows of Lake Huron meet and embrace each other at the lake shore; and the forlorn appearance of the scattered town, or rather village, affords melancholy evidence of the absence of natural advantages. Chantry Island, a long low stripe of land, about 2,000 feet in extent lying nearly parallel with the main shore, and distant from it about three fourths of a mile ... a good foundation for an extensive harbor."; the shore as an exposed sea coast; "I was informed at Southampton that navigators avoid it in stormy weather, keeping well up to the Michigan shore in westerly and north-westerly gales. Storms are so severe at Saugeen that it is not uncommon for a vessel to be forced to lie for three or four days under shelter of the pier on Chantry Island without being able to have any communication with the town ... the little bay of Inverhuron ... possesses the best natural features for a harbor to be found on that coast south of Chief's Point."

1867 June 28 [Paisley Advocate] "Railroad Convention at Walkerton" had six or seven hundred present; engineers; advantages of various lines.

1868 June 19 [Paisley Advocate] "Toronto, Grey, and Bruce Railway": directors seek bonuses in aid of construction; define route of the line. [adv.] "J.R. Stewart, Southampton and Port Elgin ... dealer in drugs, medicines, chemicals ..."

1872 Oct. [Paisley Advocate] "As opposition is the life of trade, Messrs. Scagel & Stubbs have determine to put on a new through line of stages between Thornbury and Southampton. See bills."

1872 Nov. 28 [Paisley Advocate] "Southampton – The Wellington, Grey and Bruce Railway have completed their line to this place. A special train reached Southampton at 4 o'clock on the 26<sup>th</sup> of November, having kept time to the minute at every station. It contained Mr. ... An immense concourse of people greeting the train on its arrival. The guests were conveyed in carriages to the Masonic hotel, headed by the Battalion Band of Tara. A magnificent banquet was given by the people of Southampton to the distinguished guests ..."

1872 Dec. 5 [Paisley Advocate] "The first passenger train of the Wellington, Grey and Bruce Railway arrived in Southampton on Saturday night last. Mr. Sweetham, Post Office Inspector, went up on the train with the first mails to that place by railway, and made new arrangements for the carrying of the mails. Last Saturday evening a train ran into a sleigh

containing a man and his little girl, at Hunter's Corners, five miles from Paisley. The child was killed on the spot, and one of the horses was also killed; the man was uninjured."

1873 June 5 [Advt] "The Wellington, Grey & Bruce": shareholders annual meeting; line successful; "thus the main line has been finished from Guelph to Southampton, a distance 102.5 miles; branch to Kincardine; lengths of sections; branch lines projected.

1873 Nov. 27 [Kincardine Review] "T.G.&B. Railroad": first construction train arrived on Saturday last; station house 30x90, fronting both the T.G.&B. and the W.G.&B.; a great benefit to Harriston [--Harriston Paper].

1875 Mar. 11 [Owen Sound Advt = Advertiser] "Morning train from Southampton on the W.G.&B. Railway, when about midway between Harriston and Palmerson, got stuck in the cut commonly known as Lang's Cut, and so completely fast was the train in the snow that it could neither get backwards or forwards; Conductor Quirk walked three miles through the storm; two more engines failed; farmer feeds passengers; got out after ten hours; slept on the train at Palmerston.

[1879 June 26] 1963 Aug. 29 [Paisley Advocate] "Early Train Accident": train hit cow in 1879 near Palmerston; engine driver's report was found in the old roundhouse in the Hamilton railroad yards during demolition a short time ago.

1882 July 28 [Warton Echo] "Opening Excursion" to Warton on the Grand Trunk, Georgian Bay & Lake Erie Railway due next Tuesday [Aug. 1]. [Palmerston Telegraph – "Stratford & Huron Railway"]

1882 Aug. 4 [Warton Echo] "First excursion to Warton by the new railway": four large evergreen arches erected over the street.; about 5,000 visitors on three trains and on steamers; history of the rail line from Lake Erie to Georgian Bay, terminated at Warton, and not Southampton.

**TAB ----- BRIDGES**

Article by John B. Weichel, 4 pp. Plans for bridges and ferry. "One of the problems facing Southampton's first village council ... it must have been foremost on the councillors' minds ... that the block of land to the north of the river would remain unoccupied unless they could offer people a way to cross the river. ... the Saugeen was a severe challenge ... another reason for access to the north shore was it would eventually mean a proper road to Owen Sound, where many of the village supplies came from. The normal route to Owen Sound, from the 1850s to the mid 60s, was from Southampton to Burgoyne, then east to Invermay and Tara, and on to Owen Sound, a route known as the Owen Sound Post Road." Not surprising, then, that "the subject of a bridge over the Saugeen on the agenda for the second meeting, this time held at Orr's hotel. At that time, Sept. 2, the village surveyor P. McGregor was asked to design plans for a bridge, for a site somewhere between the river mouth and the steam sawmill, which was located near the stream flowing out of Little Lake. ... By the third regular meeting, held at Gilbert's Hotel, councilors had a set of plans in front of them ..." Tenders called Sept. 19; debentures to raise \$1,000; Nov. 10, the bid by John Spence was chosen, likely the same as Capt. John Spence. Insufficient money to pay for bridge; project cancelled. By the May meeting in 1859, council had settled on the next best way of bridging the gap. Tenders for building a ferry scow; rope chains; tariff for passengers, vehicles, freight. Scow operated by Charles Forrest from the summer of 1859. Drawing out for winter; caulking; painting the ferry tariff sign in 1861; new rope. Last in village records in 1865. Peter Jones was born at Burlington Bay on Jan. 1, 1802 – father Augustus Jones – mother Tuhbenahneequay, daughter of Wahbanosay, a chief of the Mississauga tribe of the Ojibway Nation. He became a missionary of the Methodist Church. He died June 29, 1856. Journal of his missionary labours – 1829 he and a party of 8 or 9 missionaries arrived at Owen Sound. On July 22 they crossed to Lake Huron. Journal entry, to Fishing Islands. Then paddled to mouth of Saugeen when the sun was setting. Entry: “Here we found two camps of Indians belonging to the Ojibway Nation. There were about 25 persons in all. On landing we found the men sitting on a log near the water. We went and shook hands with them, and they appeared to be glad to see us. We

slept on the beach for the night. **Thursday, 23<sup>rd</sup>**. At our morning prayers, several of the Indians came and listened. Two knelt down during prayers. This was very encouraging to us. At 9 a.m. we assembled the Indians together in the largest wigwam. I then explained to them the object of our visit, and requested them to listen to what we had to say concerning the words of God in Christ Jesus". Hymn. Prayers. Sermon. "Whilst at prayer a young tame bear got on the back of our old brother Thomas Smith and scratched his arm. William Herkimer made the concluding prayer." That day Peter Jones went to see an Indian burying ground. There he saw a number of graves lying east and west, - "the head toward the west to indicate that the departed spirits had gone in that direction' – afternoon sermon – On Saturday morning the missionaries left the Saugeen River bound for Goderich and St. Clair – met a canoe with Saugeen Indians including Chief Kegedoons; Peter Jones won him to Christianity – Thomas Bigcanoe was a son of Chief Kegedoons. Thus in July 1829 the Saugeen Mission had its beginning with Thomas Bigcanoe as its first appointed missionary. On Nov. 25, four months later, Peter Jones met the Saugeen Indians hunting in the rear of Waterloo Township. The chief met the Governor at York. They asked that an inquiry be made into the lands at the Saugeen River where they wished to make a settlement. In June 1830 Alexander Chief said 25 Indians had experienced religion during the spring. In September 1831, Saugeen Indians at Goderich service. Rev. John Benham in **1831** was appointed to Saugeen, the first white missionary, and probably the first white man to visit the Saugeen district. June 1832, Rev. Thomas Whitehead visited the Saugeen in birchbark canoes, paddled several miles upstream, baptized 4 adults, 11 children; 3 marriages. In June **1833** Rev. William Case, the Superintendent of Indian Missions for the Methodist Church, came to Saugeen River, landing opposite the mission house – Benham – Whitehead – Mrs. Benham had her table spread with fish from the river, venison from the forest, butter and milk from her family cow, sugar from the maples. Gospels and tracts in English and Chippewa. Mission house 18x24 feet of logs. Meeting and school building is 20x24. The village is on an elevation. Drowning of a chief and the death by the accidental discharge of a gun caused much grief. "For two years Mrs. Benham has lived in this wilderness not seeing a white woman, and 60 miles from a white settlement [Goderich] yet contented and happy, teaching her school in a bark wigwam. [1832 Journal: ] September, Mrs. Benham ill, recovers. "Benhams were alone, sixty or seventy miles from a white settlement, except that there were two families of French half-breeds living about a mile away."

**1935 July 18** (*Canadian Echo*, Warton) Pioneer Days of the Congregational, Methodist and Presbyterian Churches in Bruce County, by F.G. Weir. (**cont'd**) 1833, John Benham left Saugeen, after five years ministering to the native people. He left Canada on Aug. 15, 1834, died in May 1868. When Benham left Saugeen there were 50 members in the church, 40

scholars in the school; the Indians had an ox team, tools, dwelling houses and cleared land. Christian native called Snowstorm appointed to carry on until next missionary, Rev. Thomas Hurlburt, who arrived in 1834. Cart; ox; cow; boat; drive animals along the shore. David Sawyer for one year as teacher and interpreter. Mr. Hurlburt spent three years at Saugeen. Description of him – in 1855 at Norway House, Lake Winnipeg – learned Indian languages. In 1837 John Simpson, an Indian from Alnwick, was sent to take charge of the mission at Saugeen (he had assisted Mr. Benham). He served for one year. He was followed by Gilbert Miller, born 1797, died April 6, 1877. Next missionary sent to Saugeen was a native preacher, William Herkimer. He arrived in 1839, and evidently stayed two years. In 1842 Thomas Williams was the missionary at Saugeen. In 1843 was sent to Saugeen Rev. George Copway, born 1818, a native missionary, whose Indian name was Kah-ge-ga-gah-bowh, which means to stand in one place forever.

**1935 July 25** (Canadian Echo, Warton) Pioneer Days of the Congregational, Methodist and Presbyterian Churches in Bruce County, by F.G. Williston wrote in 1849 of the remoteness – “If the missionary is in want of anything he must get it from Goderich, 60 miles distant, his only conveyance a bark canoe, accompanied by Indians to whom he must pay two prices for the services. Or from Owen Sound brought on the back, for which he pays very dear there, and tehn nearly the worth of the thing for the carriage.” John Williston in 1848 complained that “certain white traders from Goderich, who come to buy furs from the Indians, induce the people to drink.” The bad influence of white people. Expelled church members who opposed him. Day school interrupted by absence of villagers, hunting and fishing, and when they received the annual presents and payments, and while they were making maple sugar. Missionaries encourage a settled state as farmers, though not attractive: ploughing, said Hutchison in 1852, “the ground is ploughed by harnessing ten or 12 Indians while the chief guides them.” 1862 crops: corn, wheat, turnips, oats, peas, buckwheat, potatoes, hay. Fenian scare; Indians fled to bush. About 1836 the Newash band settled on the west shore of Big Bay – Owen Sound. 1863, missionary at Cape Croker. In 1875 the two united to form The Presbyterian Church in Canada. Minutes of the meeting on Jan. 14, 1852, of the London Presbytery: "As the new and important settlement of Saugeen (when the post office was opened at Southampton it was named Saugeen, and that name was used for the settlement for several years) cannot be conveniently reached in the winter season, the Presbytery resolved to send a suitable missionary to that station early in the spring." That was Archibald Crawford, who came to Southampton by way of Buffalo, arriving May 11, 1852. Need for a bell. In Nov. 1852 Mr. Crawford narrowly escaped drowning when the sloop *Emma* was wrecked near Chantry Island. She left Southampton on Nov. 4 bound for Goderich. She sprung a leak and Capt. Murray decided to put back to Southampton. Passing Chantry Island a huge wave struck and overturned her. Four drowned. Three times a week, two public conveyances, the mail and a private vehicle, ply the road. We got to Southampton in the afternoon, and I was kindly received by our friends, Mr. And Mrs. Reid, who, along with Mrs. Reid, senior, I found had been in our meeting at Sydenham the night before. The town of Southampton contains not more than 200 inhabitants. ... Betwixt the forenoon service and the evening at Southampton I crossed the Saugeen on the ice and visited the Indian Settlement. ... **TAB ----- NEWS COLUMNS “Early Settlers in Bruce” [John McNabb manuscript]**

1897 May 27 [Port Elgin Times] “The McNabbs of Bruce – Early days in Southampton, and district”: “No resident of the County of Bruce was so widely known in the fifties and sixties as the late Alexander McNabb, Crown Lands Agent, Southampton. He came early to the County and occupied a public position in which he met and did business with nearly every settler who came to Bruce. Alexander McNabb was born at “The Cedars” near Montreal, in 1809 and died at Southampton in 1882, aged 73 years, 31 of which he was land agent ...” “... his mother was proficient in at least three languages, namely, Gaelic, English and French.” Paymaster on Rideau Canal – in 1832 to Kingston, position in the old Commerical Bank for nine years, to 1844 – Kingston the nursery of statesmen. At the headquarters in Montreal until 1849 of the Crown Lands Department. Moved to Toronto, stayed in the land office there until June 1851; in August to Southampton, “and stayed till Christmas when he returned to Toronto to spend the holidays with his family. There were about 50 people in Southampton on Mr. McNabb’s arrival. As far as we can find out the only survivors of these 50 are Capt. John Spence and Mrs. Spence, Mr. J.M. Delley, Mr. Thomas Lee, Postmaster Mr. Wm. Gilbert and Arthur Gilbert, then a young boy. ... The township of Saugeen was surveyed by Senator Vidal in 1854 and put on the market shortly afterwards. ... The week before Christmas 1851, Mr. McNabb crossed the Saugeen river and after a short stay on the Indian Reserve, proceeded to Owen Sound on foot. From there he drove as far as Norval in company with the late Mr. George Grey ...” – 1852 – the palmy days in Southampton . “In conversation with Mr. J.M. McNabb he gave us the names of some of the very earliest settlers of Saugeen that he became acquainted with. He regards as among the very first Peter Smith, John King, Mathew King, Wm. Gowanlock, James Hendry, James Turner, the Pollocks, Alex. Wallace, Dugald Bell, John McArthur, John Smith and Thomas Bryce. Some four or five of these remain till this present time ...” “Mr. McNabb believes that he has good authority for saying that the first white child born in the county of Bruce was on the Indian Reserve and was a son of Rev. Mr. Herbert, a missionary to the Indians. Mr. McNabb knew the first settlers of Port Elgin, every one. He remembers the arrival of Mr. H. Hilker from Waterloo Township in 1853. ...” “Continued next week.”

1900 Mar. 8 [Port Elgin Times] “First Presbyterian clergyman in the county of Bruce”: letter from John M. McNabb, Southampton, Mar. 3, 1900; Rev. Alex McKidd, clergyman of Bytown, not Mr. Kidd, a layman, was the one who preached in the spring of 1850 in Kincardine. “Port Elgin Breakwater” to be extended 540 feet – Mr. Tolmie, M.P. 1903 Apr. 23 [Port Elgin Times] "Interesting Topics Discussed by Mr. McNabb": letter from John M. McNabb, Southampton, Apr. 19, 1903, about the derivation of place names in Bruce County; he mentions Wiarton (after Wiarton Place, Kent, birthplace of Sir Edmund Walker Head, Gov-Gen of Canada when the Indian Peninsula was surveyed) and Cape Croker (named by Bayfield after John Wilson Croker). Final paragraph: "The other day when down at Mr. Peter Knechtel's mill, at mouth of Saugeen River, I was shown some human bones that had been thrown up while Mr. Knechtel was having water-pipes laid to his mill. I was not surprised at this as when I came to Southampton in 1851 this place was the site of an ancient Indian burying ground. There were some graves enclosed by pickets and others with crosses at their heads. I have been informed that the Indians came great distances with their dead to inter them at this spot". Assault of George Monkman on Alfred Bolstridge, in Elderslie; death of Bolstridge. Death of Mrs. Joseph Hyde, former resident of con. 4, in Manitoba, 81 years old. Death of Geo. - 1936 [ ] “Southampton – Days of Yore with the Early Pioneers – by John M. McNabb, 1896.” Starts: “Southampton is intimately connected with the Township of Saugeen, also it is associated with the history of the whole County of Bruce. Many years prior to the settlement of this part of the country the Hudson Bay Co. had a Fort at this point, as the remains of their houses attest. Following the Hudson Bay Co., numerous traders at various times lived here, doing business with the Indians, not only in furs but also in fish and sugar. The names of some of these traders have been handed down, such as Charles de la Ronde, Piche, and the last one in the memory of the oldest inhabitant was Hugh Johnston, who resided in Goderich. It is said of La Ronde that he belonged to a good old family in the Province of Quebec ... But while the facts of the ‘Hudson Bay Co.’ and traders having done business on the banks of the Saugeen, nothing was really known of what is now the flourishing village of Southampton until the year 1845 when Mr. James Webster, then residing in Fergus, accompanied by a few friends, came down the Saugeen River in a canoe, taking notes as he went along. He also made a small sketch showing “The Mouth of the River.” This sketch Mr. Webster gave to Mr. Joseph Bouchette at that time Dy. Surveyor General, and engaged in getting up a map of Canada. On this map Mr. Bouchette utilized Mr. Webster’s drawing, and this is the first time that the River Saugeen is shown on any map. “Saugeen” is spelt Saugink. Mr. Webster found some traders, as the fact is mentioned. But nothing practically was done to further settlement until the year 1850, when Mr. Robert Lynn was given instructions to lay out a town at the mouth of the Saugeen River, and in the summer of 1851, the work was completed. The original map, now to be seen in the Dept. of Crown Lands, Toronto, is truly a curiosity in its way. ... Hon. James Harvey Price was Commr. of Crown lands, and he it was who gave the embryo town the name it now bears. It was called after Southampton in Hampshire, England ... (To be continued)”

*One page, typeset*, “Bruce County Old Boys and Girls Association, Vancouver, B.C.”, inscribed “How do you like these songs Dad, about Bruce. We all sing them at the dances in the winter time. Frank.” Lyrics to seven traditional songs, modified with Bruce County references: My County, “Bruce County ‘tis of thee”; Sweet Adeline, “Dear old Bee Line”; Swanee River, “Away down upon the Saugeen River”; Drink to me only with thine eyes, “might I of Bruce nectar sip”; Old Virginia, “Carry me back to Old Kincardine”; Pack up your troubles, “Dump all your troubles into Colpoy’s Bay”; Peggy O’Neil, “That lady’s from Bruce”.

1943 Jan. 20 [Beacon] “Year 1859 Was Trying Year for Bruce County, by J.W. MacLeod”: county is just now free of debt – debentures – crop failure of 1858 – droughts of 1858; at winter, no grain to make flour – in 1859, funds to pay for road improvement, the workers to be paid in seed grain and provisions, which the grant paid for – 1859, GTR cut its freight rate in half to help bring provisions – steamer *Islander* always left Goderich for Southampton loaded with provisions – however flour prices soared to \$10 a barrel – then a good crop in summer 1859 caused the distress to vanish – for many years after the pioneers recalled the “starvation year”. On Jan. 14, 1934 the Bell Furniture Bylaw enabled the firm to reopen.

1965 July 7 [Times] “A report on Bruce County as taken from early paper”, from *Bruce County Historical Notes*: “In an April, 1852 edition of “The Huron Loyalist”, one of the early newspapers of Huron County, published in Goderich, appeared a report of a visit to the County of Bruce. We quote: “Having just returned from a tour through the northern townships ... sketch of the improvements ... lakes, beaver meadows, timber ... In Greenock is the finest pinery that I have met with in any of the norther townships. Messrs. Valentine and Jardine are erecting a sawmill on this river near its junction with the Saugeen ...” – valuable timber – a pinery in Kinloss and Saugeen – settlers complain of high land price, lack of mills, schools and places of worship – “they have to go from Kincardine through to the Garafraxa road, a distance of about 40 miles, to get their grist ground. However, Mr. Sutton has just completed a grist mill in Brant ...” – “... On Christmas Day, 1849, Mr. William Johnston, styled the King of Brant, left Mr. Buck’s tavern in Bentinck (Grey County) on a raft to settle in that township where there was one man before him, a Mr. Bacon. It now numbers 691 ...” –

“Kincardine numbers 1149 white inhabitants, Greenock 189, Kinloss and Elderslie 60, Huron 266, Bruce 185, Saugeen 240, making in all 2,580.”

## **Binder 27 - Cannons in Southampton – once at the Museum, now at Pioneer Park**

---

1895 June 27 [Port Elgin] “Sunken Cannon – buried for many years, it has been unearthed – it was used in the war of 1812 ...”; “From a Detroit evening paper”: “Sault Ste. Marie, Mich., June 15<sup>th</sup> – Detroit passengers on the steamer *Cambria* relate an interesting story. While the steamer was lying at the dock in Port Elgin, Ont., they noticed a heavy truck with which four horses were toiling up the hillside. Mr. J.A. Chapman, mayor of the town, explained that the object on the truck was the greater part of a large cannon which had been sank in Georgian Bay during the war of 1812 ...” – 33 years ago, Bob Coulson was cruising about Penetang, raised the cannon, brought it to Port Elgin – could not blow it all up, to make plow shares – part sawn off – 12 years ago, was fired to try to raise bodies of drowned Alvin Shoemaker and

- Robt. Strong, fishermen, drowned off Port Elgin – will be fired on Dominion Day. Live stock markets, Toronto. Cheese markets. Death of Mrs. Kenneth McKenzie, of the 8<sup>th</sup> of Kincardine.
- 1900 Nov. 8 [Port Elgin Times] “Southampton”: Council meeting, “The matter of paying the freight on the gun carriage, etc. was taken up. The reeve stated that Mr. Teahan had assumed all other debts but those of the freight and telephoning ...”; unpaid bills. Tannery, “C.M. Bowman and H. Zinkan, members of the firm of Bowman & Zinkan, appeared before the council anent their proposal to re-establish their tannery here ...”; they proposed a bonus and a loan; changed to loan only; vote to be taken at municipal election time. “Thomas Brown has started a new butcher shop.” “We are glad that there is a prospect of having the tannery re-built.” Cheese markets prices.
- 1937 Nov. 20 [Owen Sound] Column, “Schooner Days”, CCCXX. “Lost Gun in Faraway Port”: the old gun at Port Elgin; description of Port Elgin harbor – wreck, dredge, fish boat – concrete wharf – “Albert Leeder, who sailed Lake Huron as a boy with old Capt. Spence, in the *Nemesis*, told a few years ago how there used to be a cannon in Port Elgin ...” – Moses Bricker had died – village blacksmith Bob Stevenson, 81, didn’t know where it was from, but located it in the tourist park, buried in the turf; [iron gun]; no muzzle left; barrel cracked; bore about 6 inches; marked “49.0.0”; source, maybe lost by Commodore Arthur Sinclair of *Niagara*; maybe from Drummond Island garrison, which British gave up in 1828; on voyage to Penetang the *Alice Hackett* lost a brass gun and wrecked on Fitzwilliam Island [Horse Island] and “Southampton fishermen got this gun out of the wreck in 1860 and got it home as far as Chantry Island, where they lost it by the capsizing of their boat”.
- 1937 Nov. 27 [Owen Sound] Column, “Schooner Days”, CCCXXI. “Old Gun was Fired to Raise the Dead”: mystery gun at Port Elgin, related by Albert Leeder of 116 Millicent St. – one-third of barrel missing – came from Horse Island – Leeder said “later on heard that Robt. McLachlan, who operated a smith shop, foundry and machine shop, had brought this gun to Port Elgin” – “The gun was taken to the railway depot some time between 1870 and 1880, and lay there a number of years. Then when Al Shoemaker was drowned lifting herring nets in the bay about 1880 the gun was taken to where it is now, and fired in hopes of raising the body of the drowned man.” – fired in 1899 at Old Home Week excursion to Port Elgin – muzzle and trunnions had been sawed off.
- 1940 Nov. 7 [Beacon] “Auld Lang Syne – Oct. 24<sup>th</sup>, 1920 ... After lying on the bank of the Saugeen River for some years the two cannon captured at Sepastapol have been mounted in front of the town hall.” Oct. 25, 1930 – marriage Danhausen-Miller; death of Mrs. Malc. H.

McNeil, 57, formerly of Southampton. Large elk seen at Arran Lake, probably one placed by Ont. government a few years ago. [adv] Paisley Cider Mill; outbreak of hog cholera.

1941 Feb. 5 [Southampton Beacon] "Council Offers Help in Drive For Old Metal": call for salvage metals; clerk to write to ask "if the old cannon at the hall could be used". Parks Board seeks grant for new roof on the arena. "Annual Meeting, Horticultural Society": "The suggested plan of planting wild rice in the Little Lake was discussed but action was deferred" [Fairy Lake]. Death of John Doll; card of thanks.

1958 Apr. 30 [Beacon] Photo and caption, "Old Landmarks Moved To Museum": "The two cannons, relics of the Crimean War which have stood for years at the High St. entrance to the town hall have now been moved and placed in front of the Bruce County Historical Museum. Pictured here are Misses Barbara Wallace and Judy DeLong astride one of the cannons just prior their being moved to their new location." W.D. Howke, cut fingers in accident at Dominion Plywoods plant. Mrs. A.B. Eagles of Southampton, weekly TV show on diets, CKNX-TV Wingham.

1958 June 9 [Beacon] "Cannon at Bruce Museum May Date Back to 1812" [transcription of whole text in Binder 43 / CD6, "John Weichel", sub-folder "6-Southampton" / "SH Cannon"] – obtained by Lt.-Col. Belcher in the 1890s – were in front of Town Hall – crest of King George III on each gun – guns made in England. [adv] Centennial Home Bingo – sponsored by Southampton Rotary Club. [adv] Theatre Esquire, Peyton Place, two shows nightly. Mixed train service from Wiarton to Owen Sound will be cancelled June 22. "Estimated 4,500 Viewed Wreckage": "Since O.C. Vail's discovery in August, 1955, of a wreck thought to be the remains of La Salle's Griffon, about 4,500 persons have viewed the wreckage, housed in Mr. Vail's workshop in Tobermory ..." Media penetration in Canadian homes: 76% have telephones; 96% radios; 63% televisions.

*One page typed*, transcription of 1958, June 9, [Beacon] "Cannon at Bruce Museum May Date Back to 1812", followed by chronology: 1895, June 27, Port Elgin Times (Capt. Joseph Bowes finds old cannon buried at beach); 1899, cannon arrives at station; 1900, paying freight; 1920, two cannons mounted in front of town hall, after lying on the Saugeen River bank for years; 1958, cannon moved to museum. John Weichel note: "Kater recalled: One cannon once stood on Scubby Pt., other near Leland's shanty (which was once nearer the road, then moved), one on both sides of river".

1964 Feb. 12 [Kincardine News] [copy of newspaper clipping] "The Mystery Cannon of Port Elgin, Ships and Men of a Forgotten Era, by Patrick Folkes" – two stories – history of one Port Elgin cannon – late 1880s, Gustave Smith, wreck off Cove Island – salvaged by Port Elgin

blacksmith Bob McLachlin – no newspaper mention of salvage by McLachlin; second story: – history of second Port Elgin cannon – 1862, Port Elgin fisherman Bob Coulson spots iron cannon near Penetang, alone at the bottom in clear water – American make, bore four inches, 12 feet long, 8 lb. cannon balls – to melt to make ploughs – unable to blow up – discarded until 1883, when fired to raise two corpses – buried for 12 years, found by Joe Bowes in May 1895.

1966 Sept. 28 [Kincardine News] [copy of newspaper clipping] “Historical Society Joins Quest In Determining History of Twin Cannon”: two cannon now in Victoria Park were examined by George Wright: 32 pounders; W = Walker Co., maker; CV = copper vent; N = new gun; C = cone vent; T = through vent; J67 = manufacturer’s number. Such a gun was carried on Lake Ontario by *St. Lawrence*.

*Two pages*, typed letter, undated, from William G. Tolton, Mississauga, Ont. [Stan Tolton’s father], to Bruce Museum and Archives, re “the mounting of the Long 32’s at the harbour front”. He is president of the Streetsville Historical Society; hobby, artillery. Notes two errors in the sign on the guns; may have been cast in Wales or Scotland; different wooden mounting needed for fortress guns.

*One page*, typed letter, undated, from William G. Tolton, Mississauga, Ont. [Stan Tolton’s father], to Bruce Museum, re “the two cannon at the harbour”. He encloses “a Xerox of a letter in reply from the Royal Artillery Historical Trust”.

*Two pages*, typed letter, Sept. 12, 1996, from Charles Bradley, Parks Canada, Ottawa, to John B. Weichel. Thanks him for his letter of Aug. 23. His analysis of the photographs; caliber, period, pattern, weight, ignition system, maker, date, foundry.

*13 pages of copies*, from books on cannons.

*One page*, typed letter, Oct. 25, 1966 [should be 1996] from John B. Weichel to Charles Bradley, Parks Canada, Ottawa, thanking for information “on the cannon we have installed on our waterfront at Southampton”.

*Six pages*, copy of a handwritten letter, 16-12-96, from John Trelford, Southampton, to William Tolton, Mississauga. Thanks him for his two letters, acquired from the Bruce Museum, and his letter from the Royal Artillery Institution; he took measurements from the two cannon at Southampton, gives them in an attachment, with a sketch.

Newsletter, *Grist*, Dec. 16, 1998, one sheet. Probably published by John Weichel; probably for the Propeller Club. “Cannon Clues?": quotes from the *Beacon Times*, Dec. 8, 1998, which

quotes from *Paisley Advocate*, Dec. 8, 1898: "Southampton Council has received from the government a pair of Russian cannon which will be used to decorate the public square or street. The two pieces weight 12,000 lbs., and the freight bill on them was \$36." Author lists the three possible sources of the cannon; "public square" was the village green, now covered by the arena complex. "Oldest news item?": quotes from *Saugeen Bruce Vindicator*, May 1, 1862, a marine report mentioning *Catharine, St. George, Bay of Quinte, Mariner, Caledonia*, all in Southampton harbour; background on St. Lawrence Masonic Lodge, founded 1860. "Those Trelfords!": Southampton Lacrosse Club founded March 1907 with John Trelford as president. "Drive by it": photo of home of Murdoch and Jessie McLeod, on Clarendon St. east of Grenville, "has undergone some rather unsympathetic changes". "The manly art": self-defence as a popular sport in Southampton, from *Paisley Advocate*, Sept. 22, 1898; ten rounds at the Athletic Club. "Help Sought" by John Weichel in getting origin of Southampton street names. Reprint of the poem in praise of the town, by "A.E. Belcher, Mayor of Southampton, 1908".

*Letter, one page typed*, Oct. 14, 2000, from Roger J. Wilson, Ottawa, to President, Southampton Propellor Club, about the two cannons, made not in England but by Carron in Scotland.

### **1. McGregor Family History**

Cerlox-bound typed manuscript with copies of b/w photos and family trees. 222 pages.

Cover: McGregor coat of arms and description

Title page: "The History of the McGregor Family, 1800-2000". Signed "Bill McGregor, Oct. 17, 2000". Inscribed "John Weichel".

Acknowledgement / Dedication / Copyright 2000 "by Wilfred (Willie or Bill) McGregor, Box 102, 73 Campbell Street, Little Current, Ontario, 705-358-3891"

pp. 1-2: Rob Roy McGregor

pp. 3-12 Captain Alexander McGregor and wife, in Michigan census 1710-1830, Washington Township, 1830 census. Alexander settled in Goderich, then Owen Sound, then Birch Island, McGregor Bay, around 1841. Quote: "J.D. Cameron the factor at the Hudson Bay Co. 1839-1846 post at Fort LaCloche, states in his Aug. 25, 1843 letter to Governor Simpson: 'There is another opponent against us called McGregor. He has begun a house two years ago on the

mainland opposite to LaCloche, which he has finished this summer.’ McGregor remained and died before 1863.”

Alexander’s first wife was Nancy Chisholm 1801-1883. His second wife was daughter of Chief Wahbahdick of Owen Sound (son William B. McGregor was Cape Croker chief, 1868-1907). His third wife was Robin (Pitchins) Shawwanosoway / Shawanosawe / Shwinakeshick / Shawinahousa. Fourth wife.

Reference to Patrick Folkes, *Pioneer Ships of Bruce County and Shipwrecks of the Saugeen*.

In 1838 Alexander McGregor was erecting stone buildings on Main Station Island: mentioned in July 29, 1838 letter by Rev. James Evans, Methodist missionary, who canoed to minister to the Indians at Saugeen River and Manitoulin Island. [in Vol. XXVIII, Ontario Historical Society Papers & Records]

Evans left St. Clair on July 13, 1838; spent two days, Sturday and Sunday, in Saugeeng [sic]; left Saugeen on July 23; the same day arrived at the Fishing Islands, preached.

In a report to Sup’t Jarvis dated Manitowaning, Dec. 20, 1839, Thomas G. Anderson refers to “squatters upon Indian land”; he speaks of “a man by the name of MacGregor, occupies fishing stations, cultivates a farm, cuts timber, sells whiskey, and purchases the Indians presents etc. etc. on the saugeen Reserve, and on an Island 20 or 30 miles from this ...”

In a letter, undated, John Weichel says, “Alexander was this county’s first business entrepreneur.” He encloses notes on the McGregors, attached. Captain Alexander Murray McGregor was born in 1823, died December 1905.

Story of William McGregor, 1858-1931, born Manitoulin Island.

Letter, June 12, 2000, from Nancy Hicks, Ft. Worth TX, [nwhicks48@hotmail.com](mailto:nwhicks48@hotmail.com), to Bruce County Museum, enclosing "some photos copied from my Campbell family album. The pictures were taken sometime between 1850 and 1890 in the Bruce County area. My great-great grandparents were Duncan and Mary Campbell ... from Scotland. Their children, Angus, William, Malcolm, and Florence were born in Ontario. Malcolm was born in Bruce County (1862) ...I also have many photos of people from the Kincardine-Tiverton-and surrounding area, ca. 1850-90 ..."

Enclosed are four photos:

- A possible Huron boat with sails, possibly towing a raft of logs.
- A three-masted schooner in full sail, watched by one man sitting on a dock.
- A wooded beach, one rowboat tied up; a second rowboat, with a possible American flag, holds three people.

- A rocky shore in a wooded hilly area, with cabin cruiser *Reo*, one man forward, American flag.

"Owen Sound **20th Sept 1870.**

To Thos. H. Johnson, Asst Comm.

Sir,

Having in accordance with your desire placed on the face of the map herewith returned all the information respecting the lots surveyed on Front & Saugeen Sts, as to their dimensions & area, squatters' names, improvements, and estimated value, there appears nothing of [?] to add in this report or letter, but I may observe with regard to the store houses on Saugeen Str. that the buildings generally appear in [?] condition, the best & most valuable one among them being Mr. Sinclair's on lot No 7, which seems to be nearly new. those of Mr. Adair on No 3 and Mr. Porteus on No 2 are the next best. Their values of course are [?] according to the character of their construction & their states of [?] there is no doubt however that the owners will [?] in each case purchase the lot on which his building stands, [?] interference will [?]. With regard to the smaller dwellings or Shanties owned and occupied by the various parties on the Front Str lots, they seem generally worth but very [?] altho the estimated value here given is rather with reference to what it might be reasonable to charge any other person / purchaser in case the occupant as here named declines the

purchase, which however they are not likely in any case to do, but most probably will in [?][?]. Mr. Eagan's dwelling house, a little rough cast building[?], is the only one amongst them which appears tolerably good [?] [?] and a good state.

The Planing Mill is in good building [?] & with the machinery [?] worth probably not less than \$150.

The Salt Works building is a mere [?] shell, which I believe was originally built for a Foundry — it has [?][?] being made of clapboards, but no floor.

The little graves on numbers 3 & 4 it is said will be removed — and the buildings or parts of buildings lettered on this plan, A, B, C, D & E standing in the street or in the Dock Reserve [?] may, it is understood, be ordered by the village Corporation, at any time, to be removed [?]."

"To The Honble Stephen Richards, Comsser of Crown Lands.

Sir, Herewith I present the returns of the [title?] survey of Town and Water lots at Southampton, as ordered in your letters of 25th May and 23rd Aug't last.

You will observe that besides the general plans of the whole survey I have prepared a separate plan of the Water lots, on a larger scale, for the purpose of shewing more distinctly the lengths of the side lines of lots.

All the information desired is placed on the face of the map with the exception of a valuation of the improvements, in relation to which it may be observed

1st, in regard to the storehouses on the Water Lots on Saugeen Str, that they all appear good buildings, and as valuable, Mr. Sinclair's on No 7, being the best, and must have cost some hundreds of pounds. There is no doubt however, I think, but that in each case the owner will purchase the lot on which his building [?] stands, and consequently no question will result.

2nd, as to the buildings or improvements on the Front Str lots with the exception of the Planing factory, on No 8, they are but of trifling value, or would be so at least to any other party than the owner, in each case. Mr. Eagin's, on No 10, is the best, and might be valued at \$150. The others, being all rather patched up shanties, shouldn't be valued to any other party purchasing at more than \$15, each, but here also [?? ] the owners will purchase the lots.

**Page 2**

The Salt Works Company's building, on No 7, is but a shell, a portion of it however lined with brick inside, having originally been put up for a Foundry, it would be worth but little except desined for the same purpose again, or for a Blacksmith's shop, in which case it might be valued at a couple of hundred dollars, or thereabouts. Probably the Comp'y will purchase the lot, No 7, on which it stands, as well as the adjoining Lot No 6, which they also claim, including Carr's shanty, which stands partly on each lot.

As to other improvements connected with these shanties, it may be observed that they are of no value, the fences being apparently made chiefly of driftwood. And as to clearing the land there was nothing of that kind to be done, as it consists almost alltogether of the drift sand blown up from the beach.

As to No 9 it will be observed that both Munro & Lahey have their shanties on it. They probably will be disposed each to buy half, dividing the lot lengthwise, and so each saving his own dwelling, while any other improvements affected, as before observed, are of no value.

All the buildings which stand in the [treaty?] or reserved grounds I presume the village Corporation will deal with.

In reference to water lot No 3 on Saugeen Street it will be observed that its west limit, extended out to the pier, interferes a little, as shewn by the dotted line on the plan, with the public roadway leading to that pier, and altho' it doesn't interfere with the [track?], yet, to guard against possible dissatisfaction on the part of the public, I would suggest that in describing the lot its west limit might be described as extending from Saugeen Str to the intersection with the east edge of the roadway, and thence along that east edge to the pier. Or describing it out on its own course all the way to the pier, a reservation could be made in the patent of "[use?] to the public" of such part as is interfered with, of the said survey." Signed / C. Rankin. Owen Sound, 28th Octbe 1870."

- h) *[Commentary by Robin Hilborn, Mar. 30, 2017: In 1870 surveyor Charles Rankin reported on settlers at Southampton (lots 1–12 on Front St. and lots 1–10 on Saugeen St.). The Rankin report is titled "Southampton Town plot, Return of Settlers on certain water lots, and others" and has a table and a Remarks section. It may be dated to Sept./Oct. 1870 since it may be part of letters to Johnson on Sept. 20 and to Richards on Oct. 28. ]*

### Manuscript A-E - - A2013.093 Box 10 – Map Drawer [Gurr]

---

**Manuscript** to accompany the maps by Robert Lynn. Manuscript in five sections, marked A, B, C, D, E. Printout on a dot-matrix printer. Possibly by Norm Gurr; see manuscript attached to Map 1, "by Norm Gurr"; see also Map 3, "by Norm Gurr". There are no maps attached to this manuscript A-E, but from text references the maps corresponding with manuscript A-E would be: **Lynn** field drawing 1, 1850. **Lynn** field drawing 2, 1851. **Lynn**, 1857.

**A = 4 pp.**

Title: "**Robert Lynn's dream! Who was Robert Lynn? Or how Southampton began**".

Begins: "It is not quite the way the present history books say it was in the beginning. In 1850, Lynn was the surveyor who was sent ...".

"... Notice that Front Street ... veers inland ...". "... this survey is the first of what he drew". "... devised the concept of a ship canal ...".

"Chantry Island is already recognized on his concept map ...".

Ends: “Lynn’s dream of where things might go ... This first map is as far as he and his men got after hacking through the woods by the time the snows came.”

**B = 1 p.**

[Lynn’s Dream continued]

Title: **“The part of Saugeen behind Southampton where our dump now is”**

Reads: “Notice the 2 cemeteries ... that never were, and the ruins of the old Indian saw mill on the creek on the other side of the river. Is there evidence still there?”

**C = 1 pp.**

[Lynn’s Dream continued]

Begins: “As the year 1851 went on ...”

Ends: “Lynn’s field maps were combined into a final map which is in the provincial archives ... about 5 feet by 7 feet ... protected by plastic.”

**D = 1 pp.**

[Lynn’s Dream continued]

Begins: “This is the second of Lynn’s field drawings. The first was done in the summer of 1850. ... Note ... school reserves ...”; Temperance Hall; Reserve for Seminaries; Widow’s and Orphan’s Asylum; Hospital and Dispensary; Town Hall and Police Station and Mechanic’s Institute; boat building yard; music hall. Naming of roads.

**E = 3 pp.**

Title: **“Lynn’s town is finally laid out”**

Begins: “How it had evolved by 1857 (7 years after Lynn first waded ashore). This map reflects Robert Lynn’s final large map of his plans for Southampton. It also shows the survey north of the river done after the signing of treaty #72 in October 1874. ... Copway Road boundary ...” Town lots near the river. One-acre lots on High Street. “Lynn’s city of 15,000 people never came about.” Advantages of Port Elgin.

Continues, p. 2: “The first 150 or so buildings are shown on the map.” Buildings of the original squatters. Erosion of beaches. “...maps show that the beaches in places are 400 feet narrower.”

Ends: “This map was lithographed in 1867, likely as a means of promoting the sale of lands in Southampton in places beyond.”
